Caring & Sharing at home

Residential Services

Our housing solutions are individualized ranging from 24-hour supervision to less structured environments. Importantly our services are structured to meet each person's preferences and varying levels of need

Group Home Living

Beneficiary reside in apartments and/or homes. One to three individuals receive support and services based on their safety, medical, behavioral and recreational needs. The programs offer a safe and stable environment where 24-hour supervision and flexible support services are provided to address individualized needs and preferences

Supported Housing

Geared for individuals who require 30 hours of supervision or less per week. Staff support individuals based on their specific needs. We make all the efforts to assuring that the person receiving service remains a part of their home community and maintains the core relationships they have developed

Family Living/Lifesharing

Individuals with intellectual disabilities are matched with, and live with, an unrelated companion, couple or family residing in the community. Host families and Family Living staff provide training, supervision and support.

Support Services

Many individuals with Developmental Disabilities need less structured supports, provided in their family homes or other settings. We work with an individual and his or her family to provide supports that help people with Intellectual Disabilities remain independent and fulfilled.

Home & Community Habilitation

Our habilitation program is designed to provide self-directed, individualized support through the active treatment process of teaching and reinforcing functional skills which improves independence in personal, social, vocational, and community skills.

Our Habilitation Aides are fully trained to monitor, demonstrate and educate consumers in order to assist with the acquisition and retention of skills involving self-direction, communication, socialization, self-care, daily living, community participation, mobility and health.

Respite Services

Our Respite Programs offer planned short-term and time-limited opportunities for you to take a break.

Companion Services

Companion or Live-in support is available for individuals. Companions could help in

- Conversation
- Reading
- Games
- Projects
- Gardening
- Appointments & Attend events
- Visit friends & Outings
- Celebrating birthdays
- Correspondence

Employment Services

Employment services provide educational and vocational opportunities to help individuals pursue careers of choice. After developing an individualized plan with the client's input, we provide several or all of these services:

Vocational Evaluation

Our employment specialist meets one on one with qualified persons to determine their wants and abilities. We gather extensive background information that includes education, employment, and family history.

Job Readiness Training

Some individuals need additional training before pursuing employment. Our staff may train the individuals themselves, help them locate books or manuals to gain the necessary education, or assist them in signing up for continuing education or college coursework.

Job Search

Our staff assists individuals in searching newspaper advertisements and the Internet, phoning employers, and dropping by workplaces to determine current employment needs.

Job Development

Once an employer or position is identified through a job search, our staff will begin to work with the individual to help him or her obtain the position.

Job Shadowing

Employment specialists may also work side by side with individuals while they perfect their performance.
